Risk Assessment 101 DRAFT 8-07-17 final b.pptx

Can you try to find some time to schedule a risk assessment 101 briefing for Richard on Monday or Tuesday of next week? We'd like to try to get this in before the formaldehyde follow-up briefing which I think is now Tuesday.

Jason Fritz and I will give the briefing – please include Tina Bahadori and anyone else she or Liz think needs to be there, along with Samantha Jones and Lou D'Amico as optional (she's on leave but is putting together materials so don't worry about her availability).

Danielle, Jason or I will get your materials as soon as possible. May be closer to Thursday...

Thanks!

Maureen
